Silver PIWI WINE AWARD INTERNATIONAL 2022

Weinbeschreibung

The grapes destemmed and gently pressed. The fermentation is carried out through indigenous yeasts at a controlled temperature. Then the malolactic fermentation begins in the wine. The second fermentation takes place in the bottle, at a temperature of 15°C, through the residual sugars of the first fermentation and lasts around 2 months.

Recomendado con el siguiente plato...

We advise you to experiment with new and unusual food pairings with the flavors and aromas of this wine. We advise you to gently invert the bottle for a very innovative PIWI EXPERIENCE tasting.

Vinification

The grapes are destemmed and pressed. Fermentation is carried out through indigenous yeasts. Then the malolactic fermentation begins. The second fermentation takes place in the bottle and lasts around 2 months.
