Weinbeschreibung

Rose

wine from grape varieties Rondo, Regent and Cabernet Cortis, harvested in the first half of October. To reach complexity, harmony and character, we fermented in steel tanks and a barrel of new French oak.

ret is fresh with integrated characters of red fruits, lingonberries and with sublime tones of newly mowed grass and roasted nuts. It pairs well with matured cheese, white meats, charcuteries or Asian foods. Drinking temperature 10-12°C.
